Development, manufacturing and quality controlled by **Frenchman In Asia**

<http://www.frenchmaninasia.com>

Bertrand Maucoux, amateur cyclist, broke with the DW-Oisans the record of Marco Pantani for the ascent of the Alpe d'Huez* (established during the Tour de France 1995) by 1 minute 03 s, thus proving that the assistance power allows to overcome the performance of the greatest champions.

**The way from Bourg d'Oisans up to l'Alpe d'Huez, consists of 21 turns, mythical in the world of cycling, for an altitude gain of 1050m over a distance of 13.5Km. This is one of the highlights of each Tour de France.*
